

AMMC MESSAGE FOR 2021 NETWORK! PRAY! WITNESS!

It is our tradition to send a New Year's message to our subscribers each January! We look back and see with amazement how many times the Lord warned us of coming trouble as far back as 2015! You can read these messages if you look through either the Newsletter or Blog sections on our website!

This year our message to you and ourselves is NETWORK! PRAY! WITNESS!

NETWORK!

God does not expect or intend for us to make it through these difficult times alone. He wants us to establish a network of a few friends and trusted people we can pray and counsel with. Perhaps you already have such friends and that is great, but in case you don't, then we are available for you and will be happy to communicate with you via email or on some social media platform. Or you may wish to make a list of even one other person or two that you can rely on to pray and fellowship with during this time.

I wrote the following in mid-2018; a full year before Covid-19 came to us. This extract is taken from my last book: '**British Christians and the Coming Civil War!**'. In the following scenarios you will certainly need to network.

Have contingency plans as an individual, family and church.

Yes, I do think that you should put the brake on your lives for a few days and think and pray about these points. (Mentioned earlier in the book).

- *What would you do in the event of a terrorist attack in your city?*
- *What about drought?*
- *How about the breakdown of law and order?*
- *What if supermarkets should run short of food and deliveries of fuel to petrol stations should dramatically decrease?*
- *The total elimination of your bank account(s) details due to a cyber-attack or systems failure?*

All this is highly possible, and I suggest you could pray about it and counsel with your family and church or fellowship and decide what could be the right plans and responses for you all. Oh, how good and how pleasant it is for the brethren to dwell together in unity.

-Psalm 133. Applying this iconic Psalm to this scenario, we could say it is the responsibility of the church or fellowship leadership to pray together and then counsel with their people in detail how to survive these and other possible situations, and to implement some detailed plans in case of such events, for they will definitely come. (End of extract)

PRAY!

I would like to recommend two books for this coming year. They are both on prayer.

The first is called *Intercessory Prayer* by Pastor Dutch Sheets and the other is **The Ministry of Intercession** by Andrew Murray.

I promise that these two books will change your life and they are well worth reading and studying! Learn how to pray this year. Learn what to pray for in God's Will and become a dedicated prayer disciple of Jesus Christ. It will change your life forever. Praise the Lord.

WITNESS!

These are the final days or at least the beginning of them. I know that some of you love to *evangelise* or *witness*.

I urge and encourage each of you to stand up for the Lord no matter what the cost this year and see God fight for you, reward you, and bless you. Sometimes the missing factor in seeing God move in our lives is that we have left out the witness factor. God may be waiting on you to speak, give a tract, a book, or make a witness via the internet, through singing, art, or writing etc. There are multitudes of ways you can share your faith and love for Jesus Christ with others. Jesus said if you confess Him before men, He will also confess you before the Father in Heaven. Amen? God bless you.

Jerry Finch

PS: FINALLY

If you have enjoyed this article and message, please share it with your friends and churches etc. In order to expand our mission and the influence of our web site to thousands around the world, we are praying for and seeking monthly givers. No matter how small your gift God will multiply it and also bless you for a cheerful giving heart. Please donate via our web site and choose the monthly option. Thank you very much.

God bless you, each dear subscriber to the AMMC.
