GOD'S LITTLE MIRACLES PART II

Psalm 5:12

For thou, Lord, wilt bless the righteous, with favour wilt thou compass him as with a shield

Psalm 5:12 Psalm 68:19

Blessed be the Lord, who daily loadeth us with benefits, even the God of our salvation.

Warm greetings!

God is always doing miracles for us. He daily loads us with benefits. He does astounding things all the time, and we don't perceive a lot of them! Our human brains are only switched on to partial capacity unfortunately most of the time. But it is GOD who is helping us to grow and see His Hand over us for good. (Refer).

If His Hand is not over you for good, you will get absolutely nowhere.

This is our second edition about 'God's little miracles'. If you missed the amazing part I, which was written over two years ago, please email us for a free .pdf copy at wcf@nym.hush.com So, without further ado, here are some of the recent God miracles, He has done for us, Praise the Lord.

By the grace of God, I have not had a car accident since 1983 when we were in Canada and a young man ran a red light late at night, hitting our car, and causing our car to turn over several times. We got out without a scratch! 2 adults and 3 children returning from a Christian meeting

Since then, all has been well. Last week, I was driving back from a morning 'school run', that is dropping off a child or children to school, and as I approached to within about 50 yards of a **roundabout**, a car came racing into the opposite lane off the roundabout.

The ground being wet and slippery, the driver (he or she I didn't have a chance to see), lost control, and was coming straight at me, at high speed; suddenly the car swerved again to the left and then the right and went into a hedge!

Fortunately no cars were behind me; I saw in my mirror that the car even continued onward safely. It seemed like it all happened in slow motion. How that did not miss me was a miracle of the Lord. **Be sure to always pray before you go out of the door.**

a tractor?

The very next day, a car moved out from behind a huge farm tractor a

hundred yards ahead and went on to my lane, I was able to swerve to my left on to the hard shoulder and just avoided him at the last moment. He was completely invisible behind the tractor, I did not see him, and he had no clue what he was doing. He just 'took a chance'!

3. Zqueezing By

Just two days later, we were travelling home after school, we got onto a dual carriageway, and began our 18 minute ritual of a journey home! Just a few minutes into the journey, I saw some form of blockage and flashing (Hazard) lights of two cars on the side of the road. As we drew closer about 50 metres away, we saw there had been an accident. Three cars

apparently had been involved. Two were in good condition but one smaller 'A' Mercedes had been reduced to a flat condition!

I looked in my mirror, it was Friday rush hour! Scores of cars at least were backed up behind me, AS FAR AS THE EYE COULD SEE, A FEW SECONDS BEFORE WE APPROACHED THE ACTUAL ACCIDENT SCENE, A POLICE CAR FLASHED BY US AND we were the lead car in all this mess. He swung a huge curve to the left of the carriageway and then swung to the right with the intention to block the road to all traffic indefinitely until the situation was resolved, which is protocol I believe!

I knew from observation that this was potentially going to cause an hour or two of back up and waiting. We just wanted to get home like everyone else! HOWEVER, by the grace of God, I saw that the police car had not yet fully positioned itself, so since on that day we had a very small car, I realised that we could drive through this very small gap the policeman had left on the right side of the road and also between the accident cars, so I slowly drove through this tiny space with my son, and got

through safely!

I looked again in my mirror, all the other huge SUVs, Range Rovers, and other richer large vehicles were going to be absolutely stuck until the ambulances arrived and all other manner of investigations took place. We were the last car to get through after that horrific accident.

I prayed for the people involved, as I was driving home, although at the time we only saw four people on the side of the road who were apparently involved. God made a very tiny way of escape for us, as His children!

These events, all happening within four days of each other, after decades of peace on the road have made me pray even more and think about **the spiritual warfare of even driving on today's end time roads!** I wrote in some detail about this in an edition last year

4. Parking:

We went to an event during the summer holidays for my son, in Birmingham, England . This event

was exactly in the middle of town. When we arrived, parking on the streets was very difficult as many of you will appreciate. There was one 'pay here' machine on one street. This machine, near the event, was the only option I could see and there was one parking slot there also. I tried to pay in the machine, but was unable to, as the 'App' did not recognise this particular machine and told us to travel a half mile to the next machine. Since i am not familiar with Birmingham and also because there was no guarantee that machine would work, we prayed what to do. The event was inside a hotel apposite us. I saw this hotel had parking, and went over to see the prices displayed. They were twice the price of these street machines. Reluctantly I drove the car in and would be paying later when we left. We ascended a lift and arrived in the hotel foyer. We enjoyed a short time with the Manager of the

lobby desk who was from Iran, a youngish man with a very pleasant personality.

From there we went to the event.

Returning to the lobby two hours later, he was still there, so I went over and asked him how to pay the car parking. He looked at us and said, 'are you staying here?' So I said no we are just here for a couple of hours. 'What's your car registration?' I told him and he clicked a few things on his desktop computer and then smiled, and said 'you're free to go! The gate will open automatically when you get down there! 'We all laughed together and we thanked him for his kindness. God bless him. God surrounds us with 'Favour like a shield'. Psalm 5:12. He also loves to bless those who are vessels of His kindness.

5. Financial encouragement

The Lord knows money or wealth is important for all of us, so we can feed our families, tithe and give gifts into the Kingdom and helping others less fortunate than us. Money is constantly flowing into our hands from God and others, and no sooner it comes in that it goes out again in many ways, some of it to God's kingdom. Here is one interesting verse about this:

Ephesians 4:28

Let him that stole steal no more: but rather let him labour, working with his hands the thing which is good, that he may have to give to him that needeth.

Recently I have been praying for income, and a way also to witness more. My present ministry is writing articles and books and working with Andreas, Inge and Sharon to develop our ministry and feed believers these articles around the world. It has been a great journey.

Often I like to make my paperback

books available for free to people I know are going to read them and appreciate them.

Attending and organising my mother's funeral (more on that another time) we travelled about 170 miles to a small town in Sussex where the event was going to be. My brother was arriving from the States and had booked an airbnb. I tried on google how to reach it and noticed from the map that there was an African church almost next door to the airbnb. I prayed and asked God if I should attend that, as the second day of our trip was going to be a Sunday. I called the number that was available when you click the map for the church and got in touch with the pastor. He was shocked to hear some strange voice, and wondered how on earth I got his number and 'what did I want!' He was, like so many Pastors of that denomination, very kind and I explained in detail the purpose of our visit, who I was and I would like to gift some books and printed articles for his flock.

To make it short, we went to the church and enjoyed a wonderful time of whole-hearted praise and

songs and heartfelt teaching and it was clear, there were many 'real' disciples, who 'took their religion' both seriously and joyfully!

He came over during a couple of songs and he took me out to the lobby, we shared a bit more in the Lord and I saw from looking in this eyes and having heard some

of his earlier 'exhortation' that he was an almost middle aged' pastor with a good heart.

We both went back in and sang some more, even my brother who is in the Greek Orthodox church, sang with all his heart and had a great time!

After about ten minutes, this dear Pastor came over again and we went back out to the lobby! He looked in my eyes, and said, 'The Holy Spirit has just ministered

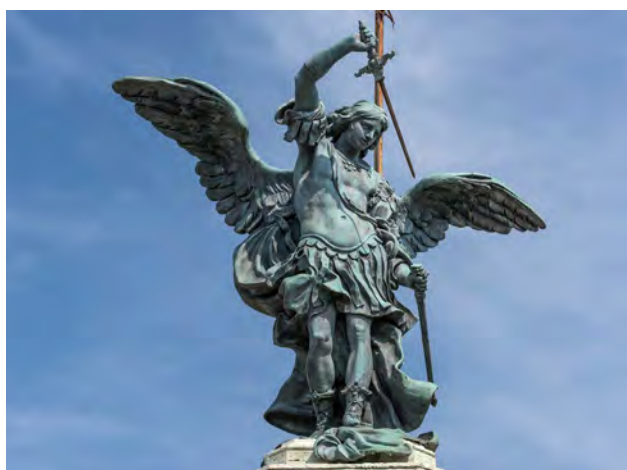

to me and told me that I should support your ministry.' He said with a smile and confidence. I looked at his eyes and there was a great light in them. For a few seconds tears came to my eyes, as I realised God was answering one of our prayers in front of me, And then we hugged each other and he asked for our ministry details which I gave him. The next day his church gave a generous gift to the ministry, although I had not asked him for anything. In the lobby we also prayed together that our friendship together would grow in the days ahead. Praise the Lord. I am sure his flock will enjoy the books and articles.

God's hand is also upon you for good, dear brother and sister, as you love Him and serve Him.

Let us be aware that his 'little miracles' are all around us, really every day.

Don't forget the greatness of GOD, but thank Him profusely for these miracles because you WILL see them!

With our love and prayers,
Jerry and the WCF Team
